Programming Projects

GO!Rilla

A progressive web app built in 2 weeks with a team of 4 developers.

I was responsible for the interactive Map feature with dynamic markers, overseeing the user journey, finalizing the booking process, and creating the customized CSS checkbox filter found on the "Select Your Style" page.

AirPets

Le Wagon Project - over the course of 5 days, my team of 3 developers created this MVP. This project allows pet owners to "rent" out their pets for the day.

My contributions: Installed Map Feature, overall design, created concept, managed overall Git workflow.

Mister Cocktail

Le Wagon Project to create functioning web application in which users can add cocktails by uploading photos, selecting from a preset list of ingredients and their quantities.

Education

Le Wagon ■ Berlin ■ Germany

Fullstack Web Developer, Computer Programming

01/2019 – 03/2019

Attended Le Wagon Berlin (Batch #232). Le Wagon has been recognized as the best Fullstack Programming Bootcamp for the 3rd year in the row according to switchup.org.

9-week intensive coding bootcamp learning HTML, CSS, Bootstrap, JavaScript ES6, SQL, git, GitHub, Heroku and Ruby on Rails. Designed, implemented and shipped to production a clone of AirBnB and a Rails prototype of a platform which connects new gym goers with experienced people who are willing to assist.
